

# *Strickland Sensations*

## *ALL BREED HANDLING SEMINAR*

**E**rik Strickland is passionate about teaching others how to groom and handle their own dogs. Although he obviously respects professional handlers immensely, he whole-heartedly believes in people showing their own dogs. So one of the goals of the Strickland Sensations seminars is to give the owner-handler an edge. Erik's dog show career has been extremely impressive. For twenty plus years, Erik graced the show rings as a sought-after all breed professional handler. He not only racked up many Best in Shows in the United States, but internationally as well....Judges, clients, breeders and exhibitors alike have all made reference to his consistent professionalism. His reputation is something he takes very seriously...Erik made the decision he would \*retire\* as a handler at the end of 2006 — going out on top with the Number One Golden Retriever in the country. He then decided he would start sharing with others the knowledge he has attained from perfecting his handling and grooming skills over the years.. He feels this is his time to give back to the \*Dog Show World\*
